1. Function description

1.1 Application

The Sludge Removal Kit (SRK) is used to remove sludge from tank below Alfa Laval MIB303 system.

SRK is electric operated by 24 V DC.

SRK it has installed in combination with standard Alfa Laval control panel.

1.2 Design

Operation of SRK is automatic, system is controlled automatically by the level switch installed on the sludge tank under the separator.

Level switch start the pump when level is high.

The alarm on Alfa Laval standard control panel is not bypassed by the SRK. This means that all alarms foresee in the Alfa Laval control panel are maintained.
