

Edition 02-03

**7.10 Pumps 7.10.1 ACP Pumps** 

**Acrobat Enclosure** 

2

Ref. 1762162 Rev.

## 7.10.1.2-2 Technical data and dimensions, 025 N6

Max feeding pressure: 0,3 MPa (3 bar)
Material pumb body; Nodular cast iron
Material pump screw; Steel and cast iron
Suction head 4 m WG manametric
Declination of m WG manametric
Built on safety valve: Opening setting 0,6 MPa (6 bar)

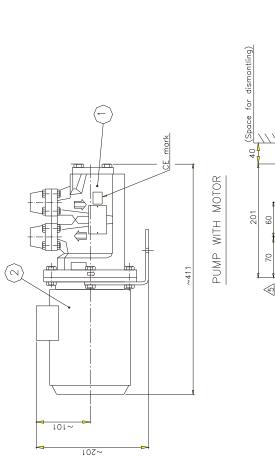

The pump is of positive displacement type Media: Fuel oil and lubricating oil Media temperature: Max 120°C

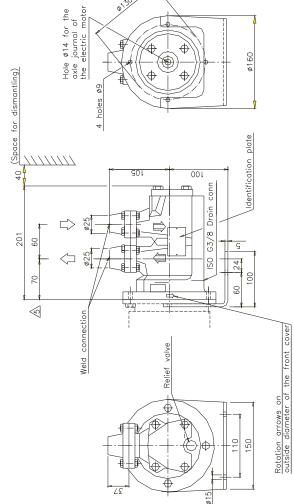

TECHNICAL DATA

Totally enclosed three phase motor for marine applications Insulation acc. to class F Enclosure: IP55 Motor:
